Invoices and payments, all in one solution

When the job's done, send a branded invoice by email or text, from the office or on-site. Jobber Payments cuts out the back-and-forth so you get paid what you deserve for hard work, faster. For bigger jobs, **progress invoicing** lets you bill in stages so cash flow stays steady and clients always know what's owed.

- All-in-one solution with integrated payment collection
- Invoices sent via SMS or email automatically
- Clear payment schedules with invoicing at key milestones
- Payment and payout sync with QuickBooks Online

“I love the fact that Jobber has online payments. At the end of each job, you just send the invoice—text it, or email it to any client. They pay it with their credit card, and the money goes automatically into my account.

Jobber Payments Comparison

	Cash and check	Other Payment Processors	Jobber Payments
Simplified fees	❌ Has hidden costs like time wasted chasing payment, or worse, missing out on payment altogether	❌ Fees change depending on your transaction volume, the card type use, or how the card was processed	✅ Simplified, transparent fees — easy to understand, no matter the transaction type
Seamless integration	❌ Requires handling of physical payment, adding extra steps and risking misplaced or lost payment	❌ Managed separately from quoting, scheduling, and managing your day-to-day, adding unnecessary steps	✅ Integrated directly into the Jobber experience , helping you better run your business and save valuable time
Payment collection automation	❌ Payment must be collected manually every time an invoice is generated, costing you and them valuable time	❌ Customers must provide payment information or their card every time an invoice is outstanding	✅ Securely save credit card information online and automatically apply it to invoices
Easy payment experience	❌ Makes paying you a manual process, increasing the chances a customer will forget to pay on time or at all	❌ Customers have to review the quote or invoice and then use another solution to pay you, adding friction	✅ Customers can pay directly from quotes and invoices , making it painless for them to pay you

What people say about Jobber Payments

“I was constantly chasing my money around, trying to meet up with clients to collect their checks. Now with Jobber Payments, the customer can either put a card on file, or my crew can collect payment right there on the spot.”

“One of the biggest problems we have as contractors is not getting paid on time. With Jobber we can grab a customer's credit card up front. We're actually able to have them set up to pay after the job is done so there's no lag time between where we have to wait for payment.”
