Jobber Payments Comparison

	Cash and check	Other Payment Processors	Jobber Payments
Simplified fees	✗ has hidden costs like time wasted chasing payment, or worse, missing out on payment altogether	✗ fees change depending on your transaction volume, the card type use, or how the card was processed	✓ no surprises with transparent, simplified fees that treat all transactions equally
Seamless integration	✗ requires handling of physical payment, adding extra steps and risking misplaced or lost payment	✗ managed separately from quoting, scheduling, and managing your day-to-day, adding unnecessary steps	✓ integrated directly into the Jobber experience, helping you better run your business and save valuable time
Payment collection automation	✗ payment must be collected manually every time an invoice is generated, costing you and them valuable time	✗ customers must provide payment information or their card every time an invoice is outstanding	✓ securely store customer credit card information online and automatically apply it to invoices
Easy payment experience	✗ makes paying you a manual process, increasing the chances a customer will forget to pay on time or at all	✗ customers have to review the quote or invoice and then use another solution to pay you, adding friction	✓ customers can pay directly from quotes and invoices, making it painless for them to pay you

What people say about Jobber Payments

“Jobber Payments has helped me look like a totally professional business. A lot of times customers ask me: ‘How do you want to get paid?’. And I say, ‘I already have my own [online] invoicing system’. And they’re like: ‘Wow!’ It also eliminated me having to pick up physical checks.”

Stacey Flanagan

SEF The Lawn Surgeon  Henrico, VA

“One of the biggest problems we have as contractors is not getting paid on time. With Jobber we can grab a customer’s credit card up front. We’re actually able to have them set up to pay after the job is done so there’s no lag time between where we have to wait for payment.”
