

Jobber Quick Guide for Fieldworkers:

Day-to-Day

As a fieldworker for a home service business, your role involves being out in the field and doing the work.

Jobber helps you manage your workday more easily and gives you all the client and job information you need to get to your client's home and complete your scheduled visits on time. Each company operates differently, but here are some of the most common features and processes that a fieldworker might use day to day.

You can share this guide with your team by saving it or printing it out, and removing the sections that are not relevant to your operations.

Start your day by clocking in

Check out this [article](#) for more detailed information and instructions.

Start your day by clocking in

As you start and stop timers throughout the day, this is what your **Time Sheet** will look like.

The screenshot displays a mobile application interface for tracking time. At the top, there is a header with a settings icon, the month 'August', and the word 'Today'. Below this, the day 'FRI 5' is shown next to 'Tracked time 08:00' and a green 'Clock In' button. A vertical timeline on the left shows various times from 9:00 am to 12:30 pm. Each time point has a corresponding 'Tracked time' entry with a description and an 'Edit' button. The entries are: 9:00 am (00:30, General), 9:30 am (02:00, Nick Johnson - Weekly Service), 11:30 am (00:35, General), 12:05 pm (00:25, Robin Schneider - Follow-up on work), and 12:30 pm (01:00, General, Lunch break). A callout box on the right, titled 'Edit time entry', shows a form with fields for 'Start time' (9:00 AM, Aug 5, 2022), 'End time' (9:30 AM, Aug 5, 2022), 'Duration' (0 hr : 30 min), and a 'Note' field.

Tap **Edit** on a time entry to edit the time or add notes.

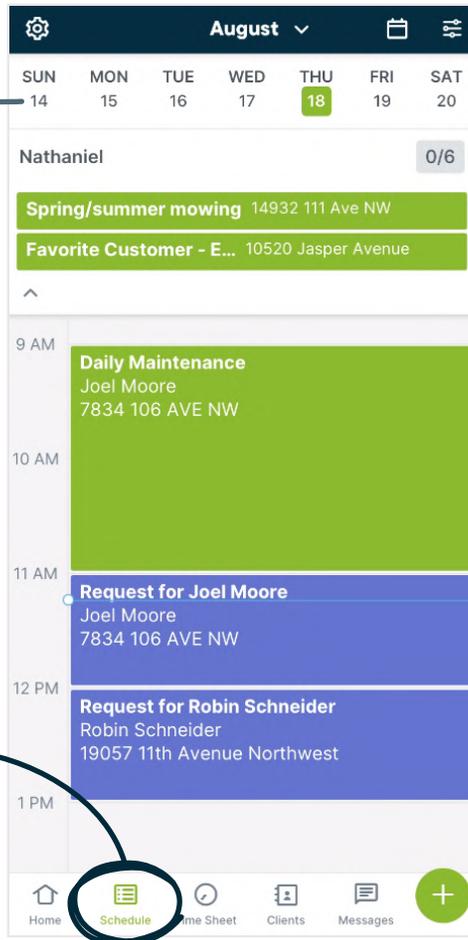

View your schedule

Check out this [article](#) for more detailed information and instructions.

Day View

Scheduled items are blocked off based on their duration with anytime visits at the top.

Today's date is highlighted in green. Tap on a date to jump to that date.

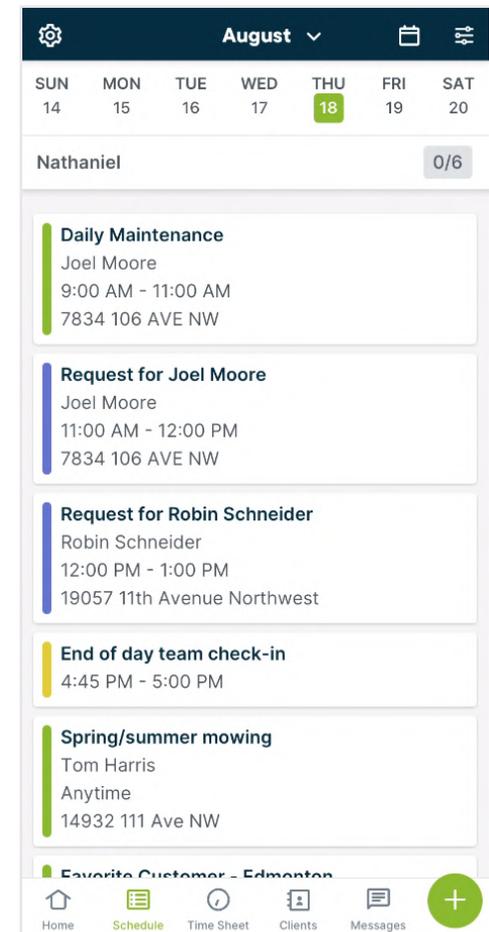

Week View

Scheduled items are blocked off based on their duration with anytime visits at the top.

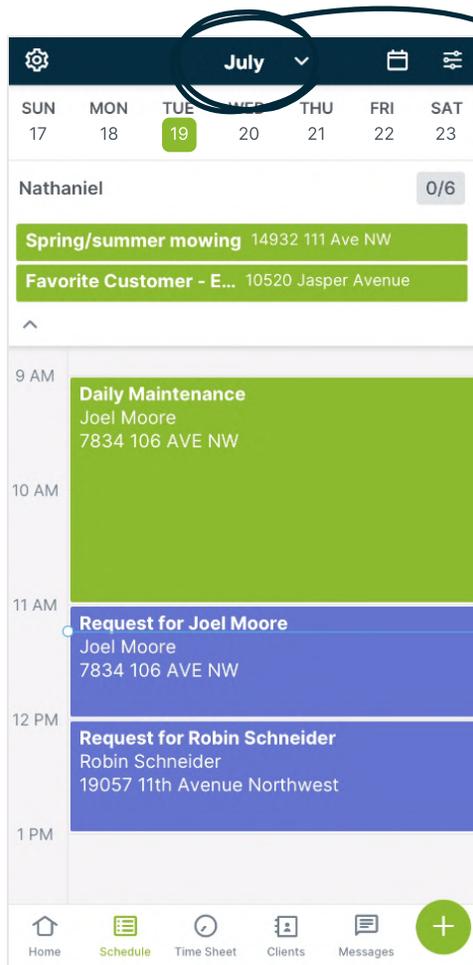

List View

Items appear as cards in a list. Ordered with scheduled items at the top and anytime visits below.

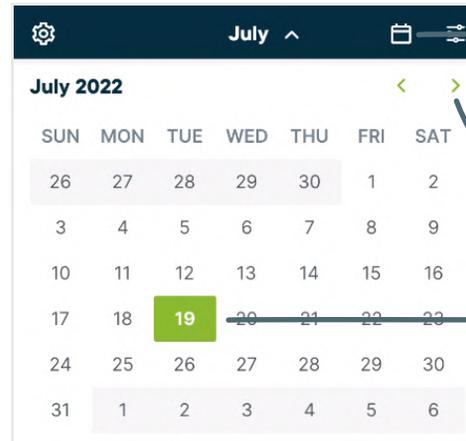

Tap the **Schedule** tab from the menu to see what is on your calendar.

View your schedule

Tap the **Month** in the app heading to view another date.

From here, tap on any date you'd like to view.

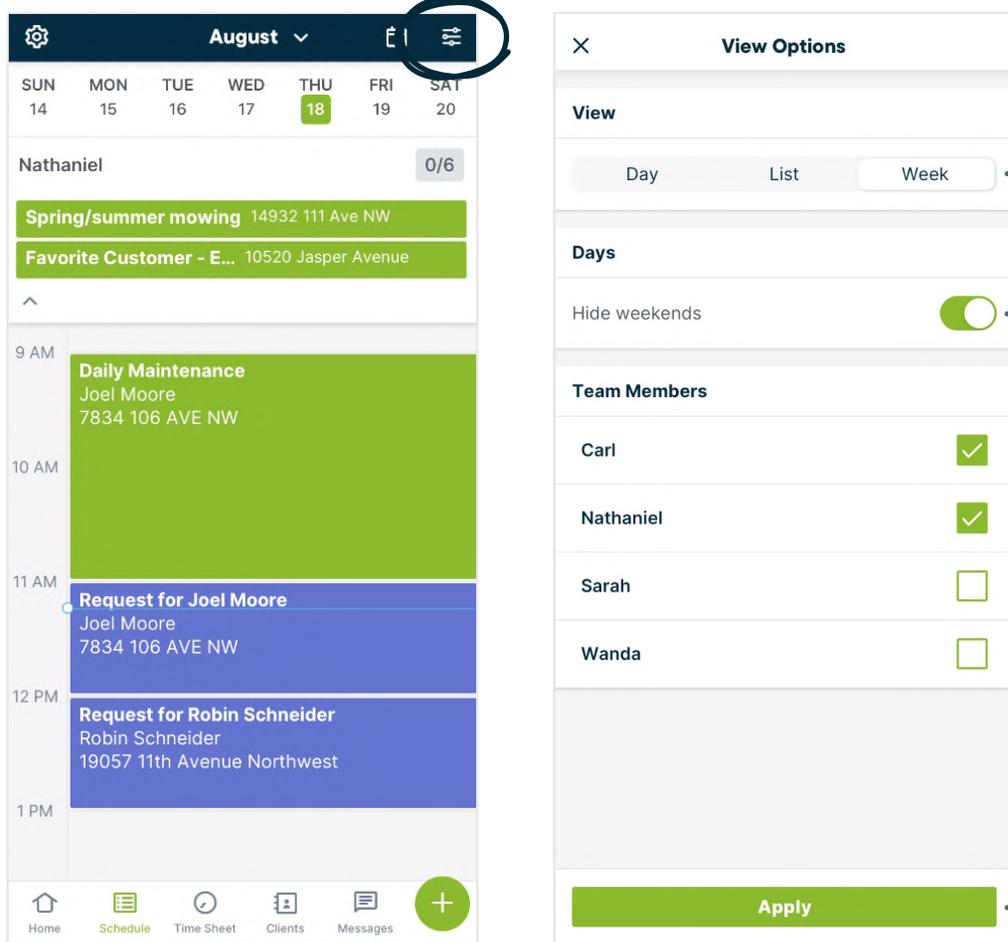

Tap the **Calendar icon** to jump back to the current day.

Tap these arrows to change the month.

Your selected date will be highlighted in green.

View your schedule

Tap the **View options icon** to change your view or select what information to show.

Select **day, list, or week** view.

On the week view, set toggle to **ON** to hide weekends.

Tap **Apply** to save the changes.

Get the Work Done

View client details

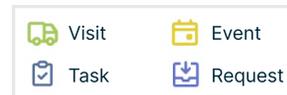

From any schedule view, tap a visit or assessment to see the appointment details.

Check out this [article](#) for more detailed information and instructions.

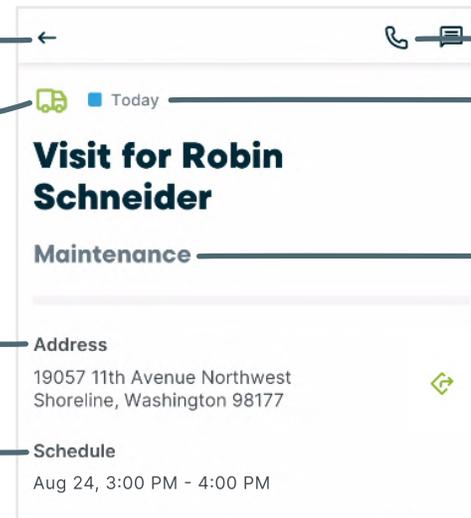

Tap to navigate back to schedule.

Icon indicates what type of schedule item this is.

Where you're going and where this visit takes place.

Schedule date and time.

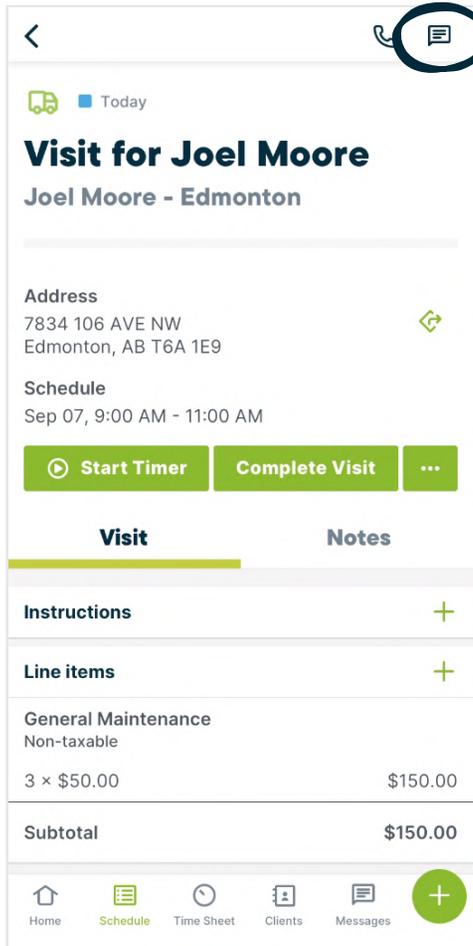

Tap to call this client.

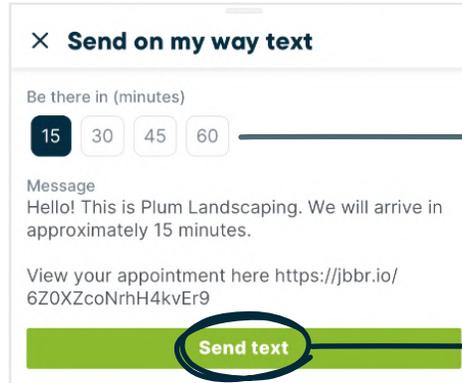

Job status.

Job or visit status.

Send an “on my way” text

Tap to send an on my way text message.
**On select plans: Send a text message*

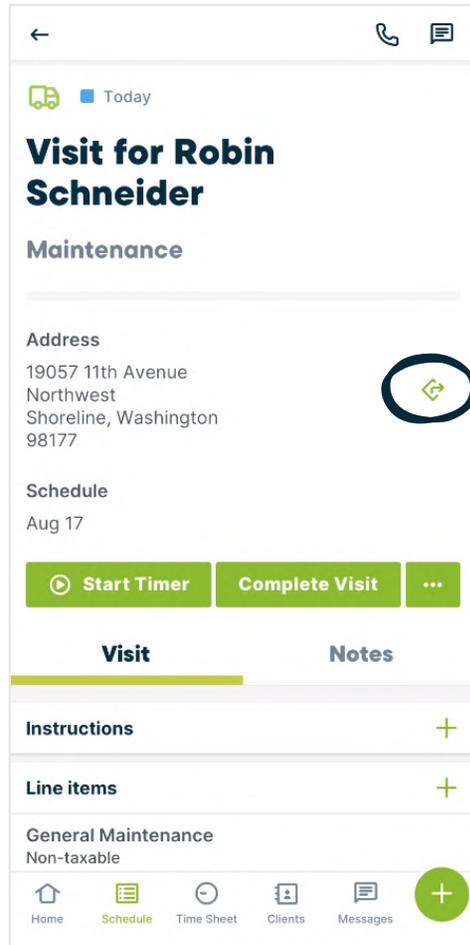

Tap the minutes.

Tap to send.

Once sent, the client will receive a message that looks similar to the example below:

Navigate to the property address

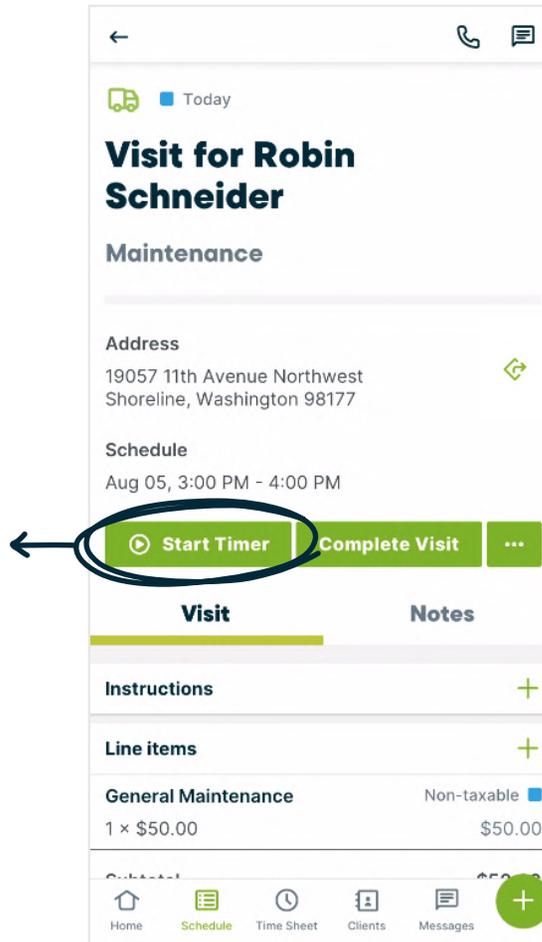

Tap to navigate to the address and open using the the map app of your choice.

- 📍 Open in Apple Maps
- 📍 Open in Google Maps
- 📍 Open in Waze
- 📄 Copy address

Start the visit timer

As part of your work, you may need to start a visit timer to log your time on this job. Tap **Start Timer** to begin recording your time with the visit timer. If you already had a general timer running, starting the visit timer will pause the general timer and log your time on this visit instead.

Tap to **start a visit timer**.
This time will be visible
from the **Time Sheet** tab.

Fill out job forms

There might be a job form on some visits, which is a checklist or form to be filled out while you're at the visit. Job forms can have different field types including text fields, dropdowns, and check boxes.

Check out this [article](#) for more detailed information and instructions.

The image shows two screenshots from a mobile application. The left screenshot displays a job summary page with sections for 'Instructions', 'Line items', 'General Maintenance' (1 x \$50.00, \$50.00), 'Subtotal' (\$50.00), 'Job forms', 'Schedule details', 'Schedule' (Aug 05, 3:00 PM - 4:00 PM), 'Assigned team' (Nathaniel), and 'Additional details'. A green circle highlights a right-pointing arrow next to the 'Safety Checklist' entry under 'Job forms'. An arrow points from this circle to the right screenshot. The right screenshot shows the 'Safety Checklist' form with fields for 'Last updated' and 'Sent on' (both '-'). Under the 'On-site' section, there are four checklist items: 'Appropriate PPE is being worn' (checked), 'Identify any standing water or other hazards' (checked), 'Pickup any items that are in the way (pinecones, etc)' (unchecked), and 'Fuel equipment on level ground' (unchecked). At the bottom, there is a green 'Save' button and a three-dot menu button. Arrows point from the 'Save' button to the text 'Tap to save once you've entered all the information.' and from the three-dot menu to the text 'Tap to save and send an email copy to your client.'

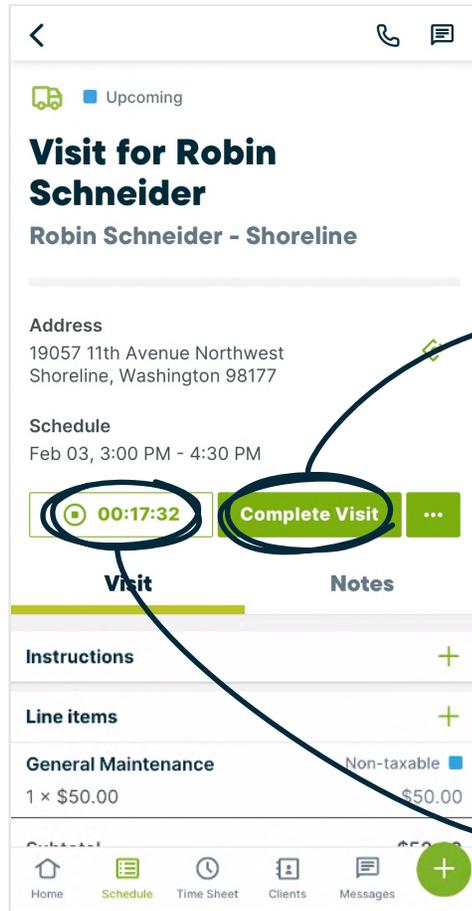

Tap to fill out this job form.

Tap to save once you've entered all the information.

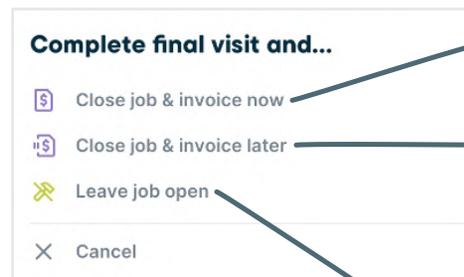

Tap to save and send an email copy to your client.

Complete the visit and stop the visit timer

Check out this [article](#) for more detailed information and instructions.

1 Tap to **complete the visit**.

Closes the job and creates a draft invoice based on this job.

Closes the job and leaves it in "requiring invoice" status.

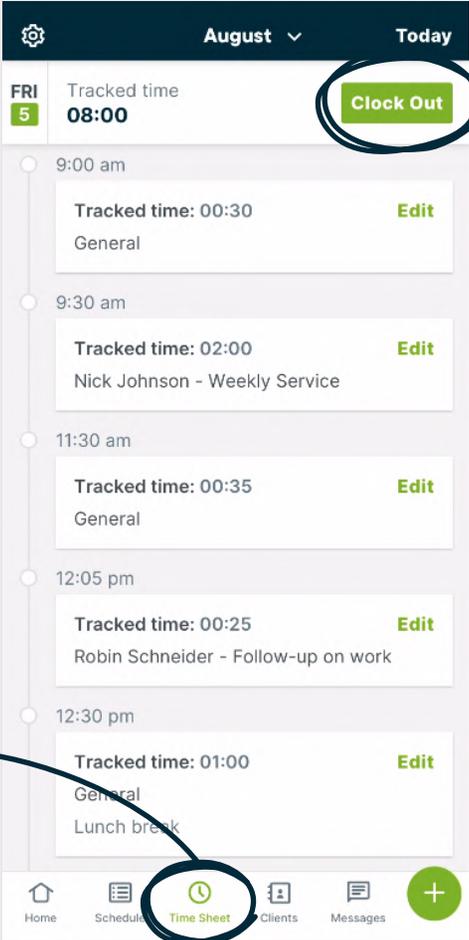

If you aren't the one making the invoice, this is a good way to flag for the office that this job needs to be billed.

Job will remain open, but visit will be completed.

2 Tap to **stop the visit timer**.

End of Day

Clock out

The screenshot shows the 'Time Sheet' tab in the Jobber mobile app. At the top, there's a header with a gear icon, 'August', and 'Today'. Below this, the date 'FRI 5' is shown next to 'Tracked time 08:00'. A green 'Clock Out' button is circled in the top right corner. The main area displays a vertical timeline with several tracked time entries, each with an 'Edit' button. The entries are: 9:00 am (00:30 General), 9:30 am (02:00 Nick Johnson - Weekly Service), 11:30 am (00:35 General), 12:05 pm (00:25 Robin Schneider - Follow-up on work), and 12:30 pm (01:00 General Lunch break). At the bottom, a navigation bar includes icons for Home, Schedule, Time Sheet (which is circled), Clients, Messages, and a plus sign.

1 Go back to the **Time Sheet** tab when you are done for the day.

2 Tap **Clock Out** to stop the general timer for the day and end any visit timers that might be running.

Checklist and Support

Now that you've read about the features that support your role working in the field, it's time to get comfortable using them. Use this checklist to familiarize yourself with the tools that will support your day-to-day.

- Clock into the general timer in the app to start your day.
- View your schedule in the app and tap on a visit. Familiarize yourself with where to start a job timer, leave a note, as well as where to view and fill out a job form.
- From the visit, locate where to send an on my way message.
